

A Story of Two Presbytery Offices:

Flat, fair pricing:
CBASE.us

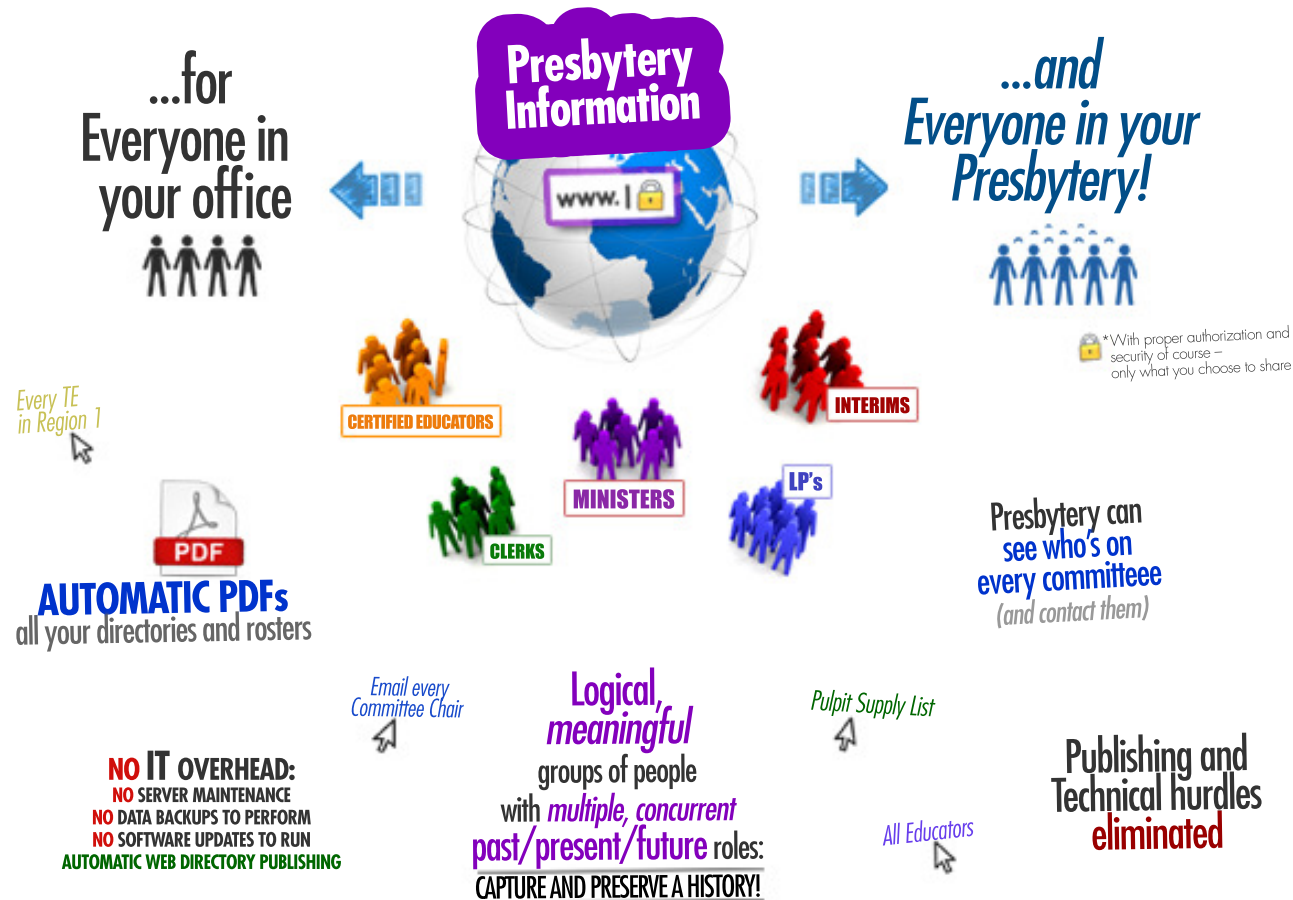

One that's **BOTTLENECKED:**

- Only one person knows how to get to the data
- Years of scattered, partial, disorganized documents
- It takes hours to manually make directories and rosters
- 1 thing has to be changed in 7 different places
- The second things are finally updated they just go out-of-date again - *always playing "catch-up"*

vs. One that's using **|CBASE|**:

It's a smart, easy-to-use Database+Web Solution that provides useful, **current** information for everyone... from anywhere... anytime*

Organize, Modernize, and Empower Your Entire Presbytery in One Seamless Transition.
